	Over 24,000 gallons	\$3.50 / Thousand			

* Short Side pricing is based on a simple meter install located on the same side of the road as the water main; Special or Long Side installations can only be priced after a site survey by our Field Technician. Distance from the main, permits, borings, etc. will all add to the above pricing of a Service Installation. Please call our office at (251) 675-2297 to schedule a site survey to verify costs associated with a New Service Installation.
